STATEMENT OF REASONS FOR ALLOWANCE

Examiner has considered Applicant's remarks concerning the outstanding art rejection and has found them to be persuasive. Although the "second noise filter" in the reference to Hsieh is responsive to the "power voltage" being at "a predetermined potential for a predetermined period", it is not seen that the "second noise filter" is not responsive to "an output signal from the first noise filter" having such a condition. Therefore the rejection in view of Hsieh is hereby removed. Since the claims now read over the cited prior art, the case is in condition for allowance.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Terry Cunningham whose telephone number is 571-272-1742. The examiner can normally be reached on Monday-Thursday from 7:30 to 6:00.
